

1. What do you think of the existing public play areas in Datchet? Please include your thoughts on the facilities and their location.	2. Do you think Datchet needs more public play areas? And, if so, what sort and for which age groups?	3. If you don't think Datchet needs more play areas, what sort of public open space does it need? Examples might include a bowling green, pitch and putt course, or facilities for other leisure activities.	4. Does Datchet need more allotments? Are there other ways to make use of the Grade 1 agricultural soil on this London Road site? Examples might include a community garden, rose garden, peace garden, etc	5. Please tell us your postcode
Very good	N/a	The disgraceful airport parking on Datchet Common needs to be fought against. Why are our parish council not up in arms about this atrocity happening in our village?	N:a	SL3
It's good but it would be lovely to have a cordoned dog park	It would be great to expand the facilities we have for all ages and provide something additional for older kids	Somewhere for people to ride their quad bikes and motorbikes away from the main park.	A community garden would be amazinga space to grow vegetables for all, flowers etc ...a place for quiet contemplation or equally a place to meet and spend time with like minded folk.	SL3 9LA
The play area in the park on Horton road is very well equipped and a great resource.	Potentially play areas aimed at smaller children, toddlers and babies such as sandpits, water play areas and sensory play.	Some kind of outdoor bouldering wall would be fantastic.	Community garden or some kind of green space which has sitting areas for reading or reflection would be nice.	SL3 9LX
The main thing that prevents me from taking my children there on a regular basis is the lack of toilets. The play areas would be better with more covered areas providing shade in the summer and also shelter from drizzle/rain.	Yes it would be good to have a water/splash area like at the Lammas, as long as it were surrounded by a proper fence/railings for privacy and safety. For primary age approx 5 - 12. It would be good to have this for primary age children since there are already several splash parks for toddlers in the area e.g. at Locks Ride in Bracknell.	N/A	Allotments would probably be a good use of the land.	SL3 9QY
		Datchet Cricket Club needs a second cricket field		SL1 5JP (Datchet CC)

Lovely area for all ages. Just a big shame abt all the dog poo everywhere. Also, there's major requirement for more dog bins around the public park area (the Rec) especially by the gate (Homlea way side)	More sitting area around the open green. All the large logs which were used for sitting have been removed. (For all All ages)			SL3 9hh
Public play areas are very good for both small children and teenagers. In addition the green gym is for teens and above. There are also tennis courts and football pitches.	Holmlea estate, and other housing areas, could benefit from play areas for toddlers.	Perhaps more use could be made of small areas of open space in residential areas - with benches and small trees for shade. e.g. triangle of land opposite Tesco and land near to flats in New Road/Penn Rd area.	If there are to be apartment blocks, the residents would benefit from allotments or a community garden, which could be a wildlife garden. Above all the productive land should not be used for parking.	SL3 9BY
They are quite good.	See below	A night time garden would be nice (soft lights until 11pm). Something that allows for street food vendors to open up (a bit like a lot of European parks) and a craft beer bar.		SL3 9DT
The recreation ground is a great asset but 1, think the space could be better used, 2 play grounds are great and football pitches but the area near the railway lines are underused apart from dog walkers.	See below and above	Sometimes for mid-teen age children at the back of he recreation ground like a skateboard park	More allotments would be good. Gardens where people could just sit also but there are existing flower beds that are a mess as they are not tended ie. opposite Tesco's	SL3 9HW

The recreation ground is both accessible and a high specification - it is superb also central.		A miniature golf course (pitch and put) would be lovely and there can never be too many benches to sit on	Community garden is a good idea, Datchet is wonderful	SL3 Montagu Road
Fantastic - well maintained. A basket swing would be nice. From the far end of the village (i.e. towards Tesco) dropped curb / crossing would be very helpful for pushchairs access - to the park. Crossing Horton Road can be difficult at times.	The play areas on offer are lovely - I would suggest increasing the number of sensory activities for younger children. (mirrors / cogs / sand / tubes / pipes / tunnels / wind chimes / water) etc. development of motor skills / scientific thinking / language.	It would be nice to have leisure activities in the village, BMX track, Nature trail, sculpture or art trail, Childrens forest school / bushcraft, fitness classes.	A sensory garden - accessible (older / residents, pushchairs), A memorial garden - celebrating local residents, following DVS research.	SL3 9LX
		A mini golf area to allow more 'family' time! A larger, more inclusive, green gym. More varied dance classes, e.g. Salsa, Bachata, Jive, Bellydance etc. to 'try, explore'	Community garden and peace garden would b a great opportunity to socialise and 'work out' together.	SL3 9BG
		Golf Course, Bowling green, Open air Cinema	Rose Garden	SL3 8QL
Pretty good, 8/10 village will served, maintenance will always be an issue with dog walkers and keeping them clean but good signage etc.	Not especially the main playing fields are not over used.	Swimming pool would be great but expensive	Great idea, community garden would be brilliant	SL3 9BP
We think that public play areas are good but could do with more for adults i.e. bowls or grass bowls	Adults between 50 +	Art and craft + Mini boot sales in the field	Yes good idea for people to seek other fields in their lives	SL3 9LU
Already a well used play area on the rec.		Outdoor bowling green a good idea but Windsor already has these	We ought to grow more of our food a good idea	SL3 9DD
Sports field / tennis court / play area for children all good - good they are together on the rec. - Development further for adult exercise sessions (local exercise club) gold club good	See above - cycle track around the rec. for excercise.	No	Agree this would be a good idea all above	SL3 9DN

Great playgrounds, kids recommend more slide + swings. Assessable to everyone, with a great location near shop and two housing areas.	Yes, because there are lots of children, with two schools close by.		Yes, because people would like to be able to grow their own food. There is nothing better than eating food that you have grown yourself.	SL3 9EU

Nice play area - could do with maintenance	The play area is nice	More take aways, cafes, fairs in the park, Datchet market in the recreation ground	Peace garden with a water feature	SL3 8QL
Good facilities		Bowling green, Putting green		SL3 9JY
I think there are sufficient play areas in Datchet	No	No	No	SL3 9BA
We have plenty now! The existing public play areas are very good	No we do not need more public play areas	I think it is very good now	No to allotments	SL3
			Yes, Allotments are an excellent idea for the London Road site	SL3 9JY
Datchet rec. is a good space but needs better up keep		Bowling green - Datchet Bowling club Open air Cinema	Rose garden - Reflection garden	SL3 8QL
		Mini golf - public walks / paths		SL3 9BG
